

Traveling With Terriers

Top 5 Tips and Tricks for Winterizing Your RV

1.

To not let pipes burst, gather the tools you need first.

2.

To make this job neater, empty and bypass the tank water heater.

3.

Full tanks are the worst because they will burst.

4.

Flush each line one-by-one until this job is done.

5.

Flush each p-trap, and then it's time for a nap!
